

**News Announcement*****ILL receives FY 2011 IPS claim (VAT refund) of ₹ 25.46 Crore,  
IPS tenure increased from 7 years to 9 years***

**Pune India, March 02, 2012:** Innoventive Industries Limited (ILL) a multi-product engineering company which manufactures precision steel tubes, membrane panel strips, auto components, oil well drilling couplings, pup joints and other steel products catering to applications in diverse sectors such as transportation, boilers & heat exchangers, energy, oil & gas, farm equipment & general engineering is pleased to report that it has received disbursement for its VAT refund of ₹ 25.46 Crore for the period April, 2010 to March, 2011 which represents 85% of the ₹ 29.95 Crore claim amount from the Directorate of Industries, Government of Maharashtra (GoM). As per procedure, the balance 15% will be disbursed after a business audit by VAT Department of Maharashtra Government.

Innoventive has recently received an approval from GoM to raise the eligible investment limit at its Pimple Jagtap facility to ₹ 562 Crore under IPS. GoM has increased the tenure for receiving VAT refunds under IPS to 9 years from previous 7 years. Now the company is eligible to receive the refund from December 1, 2008 to November 30, 2017 (as against November 30, 2015 earlier).

The company's main facility at Pimple Jagtap in Pune had been awarded 'Mega Project' status by the GoM under the Package Scheme of Incentives in 2007. This entitles the company for some monetary benefits which includes an Industrial Promotion Subsidy (IPS) in the form of VAT refunds equivalent to 75% of the eligible investment made in the plant with effect from March 28, 2007 subject to certain terms & conditions.

With its Mega Project status and under the new approval from GoM the company is eligible for IPS until FY 2018. The company started getting IPS primarily by way of VAT refunds from the year 2010 and this disbursement represents the third consecutive refund. This validates the company's strong compliance with the terms and conditions to be fulfilled in order to be eligible for such benefits. The Government of Maharashtra had issued circulars dated 10th and 17th March 2011 which further clarified and laid out guidelines for eligibility of refunds under the scheme. ILL remains eligible for these benefits even under the revised circular.

Commenting on the VAT refund **Mr. Jitendra Palande, Group CEO, Innoventive Industries** said, *"It gives us great pleasure to state that we continue to benefit from the*

*Mega Project status awarded by the Government of Maharashtra and we have received a disbursement for ₹ 25.46 Crore as VAT refund based on the claim for the period between April 2010 – March 2011. Further, we have received an approval by GoM to enhance our eligible investment limit under IPS to ₹ 562 Crore and our tenure has been increased to 9 years in receiving VAT refunds under Industrial Promotion Subsidy. This demonstrates that our business is in-line with the requisite regulatory guidelines and compliance under the Mega Project status set by the Government of Maharashtra.*

*We are confident of our performance in this fiscal given our wide product portfolio, expanding customer base, geographic presence, scalability of newer segments and impending introduction of new products. We are also undertaking capacity expansion at our facilities which will provide greater economies of scale. The incentive received by IIL from the Government of Maharashtra further enhances the value proposition for the company.”*

IIL has made significant investments in building state-of-the-art manufacturing facilities and developing its in-house R&D to improve the company's processes and product innovations. Its marquee client base like Alstom Projects Ltd., Bajaj Auto, BHEL, John Deere India and Thermax are a testimony to its superior and consistent quality of products. The company's growth for the year remains robust and the Company expects this trend to continue well into the next year due to impending introduction of new products, addition of new clients and increased export volumes.

### About Innoventive Industries Ltd (IIL)

Innoventive Industries Limited (BSE:INNOIND, NSE:INNOIND, Reuters: INNV.BO, Bloomberg: IIL :IN) is a multi-product engineering company which manufactures precision steel tubes, membrane panel strips, auto components, oil well drilling couplings, pup joints and other steel products catering to applications in diverse sectors such as automobiles, boilers & heat exchangers, energy, oil & gas, farm equipment & general engineering.

It specializes in processing various types of steel, has a capability to make tubular transformations, enjoys flexible production systems and is able to undertake faster development cycles and effective supply chain management for efficient delivery. IIL has a well developed in-house R&D setup which has led to innovation in the manufacturing process leading to significant savings in resources and heightened competitiveness. The company's patent for its unique manufacturing process has passed public domain and is in the process of filing additional patents for some of its other innovations.

IIL has six manufacturing facilities spread across Pune and Silvassa. Its manufacturing facility at Pimple Jagtap was granted the 'Mega Project' status by the Govt. of Maharashtra under the 'Package Scheme of Incentives 2007 which entitles the company to relief from certain duties and benefit of

Industrial Promotion Subsidy. IIL markets its products in the domestic as well as export markets and its customer list includes some of the leading names in their industries.
